A passionate and detail-oriented Full Stack Developer with expertise in building modern, scalable, and user-friendly web applications. Proficient in the MERN stack and Next.js, with a strong focus on clean code and performance optimization. Dedicated to turning complex problems into elegant digital solutions.

EXPERIENCE

FULL-STACK WEB DEVELOPER (FREELANCE & PERSONAL PROJECTS)

2025 – Present

- Architected and developed end-to-end web applications following modern web standards and best practices for personal and client-based projects.
- Engineered high-performance frontend interfaces using Next.js and Tailwind CSS, ensuring 100% responsiveness and optimized Core Web Vitals.
- Implemented real-time database management and secure user authentication systems leveraging Supabase (PostgreSQL).
- Optimized technical SEO by integrating JSON-LD structured data and dynamic metadata to improve search engine visibility and indexing.
- Crafted interactive UI/UX components using Framer Motion and Shadcn UI to enhance user engagement and visual storytelling.
